- **M150: Authentication & Authorization,** MongoDB University | September, 2021

WORK EXPERIENCE

IT Officer
Gamut Security and Escort Services Limited, Ogbomosho, Oyo State | November 2023 - April 2024

- Introduced the use of fuel dockets, effectively curbing fuel theft and improving accountability.

- Led the development of an internal inventory management system, transitioning the company from a manual paper-based process to a digital solution, enhancing operational efficiency and reducing errors.
- Optimised the digital presence across platforms, resulting in a **50%** increase in online interactions and ensuring **98%** uptime through proactive troubleshooting of hardware and software issues.

Web Developer
Binary Computers Nig. Ltd, Minna, Niger State | July 2019 - June 2023
- Pioneered the development of dynamic web applications using the **MERN** stack and **APIs**, resulting in a **40%** increase in user satisfaction and a 30% reduction in load times through optimised performance.
- Implemented user authentication and authorization protocols with **Node.js**, conducted unit tests, and delivered cybersecurity training, improving staff compliance with security policies by **60%** and significantly reducing phishing incidents.

Computer Operator
Longman Technology, Minna, Niger State | August 2017 - May 2019
- Resolved hardware and software challenges efficiently, contributing to a **95%** system uptime and enhancing overall operational efficiency.
- Conducted training sessions on computer usage and software applications, resulting in a **40%** improvement in user proficiency and satisfaction ratings.

EDUCATION
B.Tech in Cyber Security Science
Federal University of Technology, Minna | 2023
First Class Honors
